Intended for: Anyone interested in learning to speak conversational Chinese

Text Book: 360 Standard Sentences in Chinese Conversations (Volume 1) 标准汉语会话 360句 (1)

This is a beginners' course designed to teach the basics of conversational Mandarin. The course is intended to maximize speaking skills in a short amount of time. Through direct instruction, students will master Chinese pronunciation, grammar rules, the order and structure of expressions, with a focus on learning conversational Chinese in daily life scenarios.

In the fall semester, the course will focus on learning Chinese Pinyin, the phonic lettering system for character pronunciation. Then we will go through 8 lessons in detail, designed for common conversations, including Hello!, Are you hungry?, Which country are you from?, When will you get off work?, How much is it?, and Asking for directions.

教师林洁简介

I am from the ancient Chinese city of Xi'An. Before coming to America, I taught mechanical engineering in college for 16 years. I have taught Chinese classes at SLMCS since 1998. In addition, I have also taught bilingual classes for English students. Of the students I have taught in these bilingual classes, 60% have gone on to the jobs closely involving the Chinese language, such as working in China, working in international studies, and doing business with China. I know that anyone who comes to this class will have ample opportunities in their future for productive application of their Chinese knowledge; anyone can find success! I welcome you all into my classroom and I am excited to embark on this unforgettably rewarding journey with each of you!

我来自中国西北古都西安。很多年前，我作为一名下乡知青，拉过车，种过田，生活艰苦，劳动繁重，缺水断粮是常有的事。多亏当地纯朴的农民帮助我学会如何生活和如何生存，使我终生难忘那段艰苦的岁月。后来，我进了工厂。一九七七年国家恢复高考时，考进了西北工业大学。毕业后踏上了长安大学的讲台，一站就是十六年。其间，我有幸作为访问学者，来美国纽约 SUNY 大学深造了两年。一九九六年我第二次踏上了美国这片土地。从此，在工作之余，寻觅着能否继续从事我所钟爱的教书职业。一九九八年，我梦想成真：成为现代中文学校的一名老师。在美国教中文，不仅是我的爱好，更是一种崇高的使命--向我们的后代传承中国古老的文明和灿烂的文化，使孩子们不要忘记：他 / 她们永远是中国人！因此，在上每一节课时，不仅充满了热情，更渗透了对祖国，学校，孩子们和家长们的责任！一晃我已在此教书十八年。学生们和家长们给了我自信和宽慰，现代中文学校给了我幸福和满足。这里是我热爱的黄土地！我要在此挥洒汗水，辛勤耕耘。这片神奇的土地能滋养万物，培育桃李满天！

■ Photography Basic 摄影的基本思路与技术

■ Graphical Introduction to Programming 计算机图形编程入门

- ID 课程代码: PR07A_19F
- Date 日期 : Sun
- Start Date: 8/18/2019
- Session 时间 : Session 7, 3:20 pm – 4:05 pm
- Room 教室 : 2307

Description: This course offers a unique and intuitive way of introducing kids to coding. Students make programs to generate their own graphical contents, starting from simple polygons and spirals, and moving onto more complex shapes such as fractals, and eventually making flashy animations and interactive games. Along the way, they will learn key programming and computer science concepts (e.g., variable, list, conditionals, functions, iteration, recursion, events, etc.). The course uses Python language and the Python Turtle module, which provides an easy-to-use graphical programming environment. The course is designed for students with some background of coding but wishing to learn computer science and programming in a more formal setting. It can be taken as a preparation (but not replacement) for a CS AP course.

Prerequisite: The student must have taken Algebra and Geometry courses in the middle or high school, and have some basic experience in coding (e.g., Scratch, Code.org, FIRST LEGO, etc.). Each student is required to bring his/her laptop computer (with internet connection) to the classroom.

Instructor: Tao Ju is currently a professor of Computer Science at Washington University in St. Louis. He obtained his BS and BA degrees from Tsinghua University in 2000, his PhD degree from Rice in 2005, and has been teaching and conducting research at WashU since then. His research area is computer graphics. For more information, please visit Tao's webpage (www.cse.wustl.edu/~taoju)
